

THESE MOLD TO MY FEET EXACTLY WHERE I NEED THE SUPPORT!

These are by far the best insoles I've ever purchased!
I have been dealing with plantar fasciitis and these mold
to my feet exactly where I need the support! They are
even better than my custom-made orthotics!

— Jill, user testimonial

SOLE™

IT IS A MIRACLE TO BE MOSTLY PAIN FREE!

I suffer from foot pain and these are the only orthotics or inserts that have ever helped. Without them I could not do my job which requires many hours hiking with a full backpack. It is a miracle to be mostly pain free! Worth every single penny.

— Heather, user testimonial

SOLE™

DOUBLED THE MILEAGE I AM CAPABLE OF IN A DAY.

I have had a pair of these for my hiking boots for quite a while. They eventually wore out so I decided to get new insoles. I have very low arches and my feet get sore easily. Well, I tried out some of other brands deals and they didn't even come close to these heat form ones. These insoles doubled the mileage I am capable of in a day. Just ordered my second pair.

SOLE™

THE FIRST TIME EVER MY ARCHES FEEL FULLY SUPPORTED.

SOLE's thin footbeds solved my foot pain and I didn't need to get orthotics. I don't even notice them in my sneakers and it's the first time ever my arches feel fully supported.

— Nadine, user testimonial

SOLE™

BEING PAIN FREE AND ABLE TO WORK IS WORTH EVERY PENNY.

12 hours on my feet running around a very busy ER and no more back/foot pain. I've tried many pairs of insoles over the last 20+ years but these are by far the best. I was starting to get plantar fasciitis, when I bought these my feet stopped hurting. Then I noticed that my low back wasn't hurting as much. Now no more back pain in part due to improved posture when standing. Being pain free and able to work is worth every penny.

THESE FOOTBEDS REJUVENATED MY LOVE FOR THE CARVE.

It's true. I've been snowboarding for 25 years and have suffered through all of the big name boots with high arches and insteps, to the point that I was convinced foot pain and numb toes were simply part of the sport. Saving an extremely long saga, these footbeds have rejuvenated my love for the carve. They have allowed me to focus on my experience rather than how many more runs I can get in before I have to pack it in and take off my boots.

— Mark, user testimonial

SOLE™

WON'T EVER RUN WITHOUT THEM AGAIN.

I have been running for over 15 years and just recently been diagnosed with plantar faciitis. I started running in SOLE's mediums and now run pain free and was able to train and complete a marathon. Won't ever run without them again. Great product.

SOLE™

BROUGHT BACK THE JOY OF RUNNING.

A great product. Had recurring knee pain which then led to hip discomfort. I was skeptical but ordered the insoles based on comments on runnersworld.com. I am very glad I did! Received them yesterday, performed the heat molding, and had my second run in them this morning. No pain! Great support. Brought back the joy of running. Thank you!

MY SKATES FEEL LIKE SLIPPERS NOW!

I bought two pairs of the Active Thin footbeds two years ago for my hockey skates and downhill ski boots. They made a huge difference in the comfort of my skates. I have plantar fasciitis and flat feet, and my skates feel like slippers now! My ski boots felt like they were crushing my foot downwards. Now I feel like I have some arch support, and my feet sit more neutral in the boot. I will be buying more pairs for my walking/running shoes and motorcycle boots. Thanks for making such a great product!

SOLE™

URBAN STREETS, HIGH ALTITUDE MOUNTAINS OR DESERT TERRAIN.

I've owned 4 pair of your insoles and have used them in every conceivable environment to include the craziness you find in combat zones. They really do breathe new life into new and old footwear. Why pay big money for new shoes or boots when you can spend one quarter to one half the amount and renew your footwear to practically brand new status? SOLE insoles had me at hello...
