## FOOTBED ANATOMY

85%

Customers' feet feel better after wearing SOLE.

9/10

Customers recommend SOLE to a friend.

88%

Customers purchase SOLE again in the future.

### METATARSAL SUPPORT PAD

Relieves pain and pressure in the ball of the foot, supporting and lifting the toe bones into natural alignment. Available in Active with Met Pad Footbeds only.

### TOP SHEET

Thin top layers in a variety of high quality materials selected for both comfort and function.

### SOFTEC CUSHIONING LAYER

Superior open-cell foam technology provides industry-leading shock absorption and comfort. Available in Thick and Medium Footbeds only.

### MOLDABLE ORTHOPEDIC BASE

Adapts to your foot without compromising the orthopedic shape.

### ACCOMMODATIVE ARCH SUPPORT

Personalized support prevents arches from collapsing and allows the foot to move naturally.

### DEEP HEEL CUP

Encourages the heel's natural cushioning and helps prevent lateral movement.

SOLE Footbeds and Footwear are accepted by the American Podiatric Medical Association.

Clinically proven to reduce plantar fascia strain by one third.
